

Issue of IBAMA licences and satisfaction of a condition precedent to Baúna transaction close

Further to the ASX release on 27 July 2020 regarding the amendment of the sale and purchase agreement (“SPA”) to acquire a 100% operating interest in the Baúna field (Concession BM-S-40), Karoon Energy Ltd (“Karoon”) is pleased to announce that it has been issued with new environmental operational licenses by the Brazilian environmental agency, the Brazilian Institute of the Environment and Renewable Natural Resources (“IBAMA”).

The issue of such licenses by IBAMA was a condition precedent to transaction close under the SPA and represents the satisfaction of the first of three key conditions precedent related to third party/regulatory approvals.

The transaction close remains subject to further conditions precedent, including (without limitation) ANP approval and FPSO charter assignment, being the remaining key third party/regulatory conditions precedent referred to above and described in the ASX release on 27 July 2020.

Karoon expects to complete the transaction around the end of the third quarter of calendar year 2020 and will keep the market updated on progress regarding this timeline.

This announcement was authorised by the Board of Karoon Energy Ltd.
